

My daughter Nataya Judith Martin was born November 16, 2008. She was 3 weeks early at 5 pounds 11 ounces. She was the biggest joy in my life. I had 3 great weeks with my daughter then one day she woke up at about 3 am to eat. I fed her a bottle changed her and she fell back to sleep. I woke up a couple hours later with my nephew and checked on my daughter and she was blue. I frantically called 911 and Nataya's father tried to give her CPR. It took what seemed forever for the ambulance to get there. The paramedics rushed her to the Cape Cod Hospital. Her father and I went with the police and when we got there, the doctors said I'm sorry there is nothing we can do. This all happened December 7, 2008. There was an autopsy done on Nataya and the ruling was SIDS.

Not soon after I buried my daughter we found out I was pregnant with my son. He was born 7 weeks early. He was in the Boston hospitals for the first month he was here and is doing good now at 8 months old.

I want to say thank you for considering to help my daughter with a stone she is an angel to me I miss her so much.
